Free DRM Removal is a utility designed to help you remove the protection from your videos and tracks, so that you can enjoy them on an unsupported MP3 player or another computer.. In addition, it allows you to convert multiple videos or tracks at the same time, a feature that can save you a lot of time and energy if you have an impressive music collection.. The UI consists of a main window where you can add the M4V videos or the files from the iTunes Media that you want to convert to MP4.
